

Malcolm MacKenzie Award winners 2016

Saint Peter the Apostle High School

Daniel Hunter

Daniel is an exemplary member of our school community. He is renowned for his conscientious approach to his studies. He has achieved Highers in English, Maths, Chemistry, Human Biology, History and Computing, all at A band 1. In his advanced Highers he gained Biology, Chemistry and Maths, all at band A. This year, Daniel embarks on a university career in Medicine. Throughout his time in school he has been a role model for all our younger students. He was one of a group of students who worked with Alzheimer's Scotland and actively encouraged all S6 students to become dementia friends. As well as being a volunteer at Lourdes, Daniel has also worked at St Margaret's hospice.

Louise Gallacher

Louise is an exemplary member of our school community. She is renowned for her conscientious approach to her studies. She has achieved Highers in English, Maths, Chemistry, Human Biology and Spanish at band A. In her advanced Highers she gained Biology band A, Chemistry band A, and Maths at band B. This year Louise embarks on a university career in Medicine. Throughout her time in school she has been a role model for all our younger students. Louise has always been heavily involved in charity work and has been at the forefront of many campaigns such as Alzheimer's Scotland and the St Margaret's Hospice. In her last year of school, Louise carried out a number of hospital placements to gain further understanding of her desired career path which led to a permanent volunteering position at Robin House.
